

Year 2 Summer Term

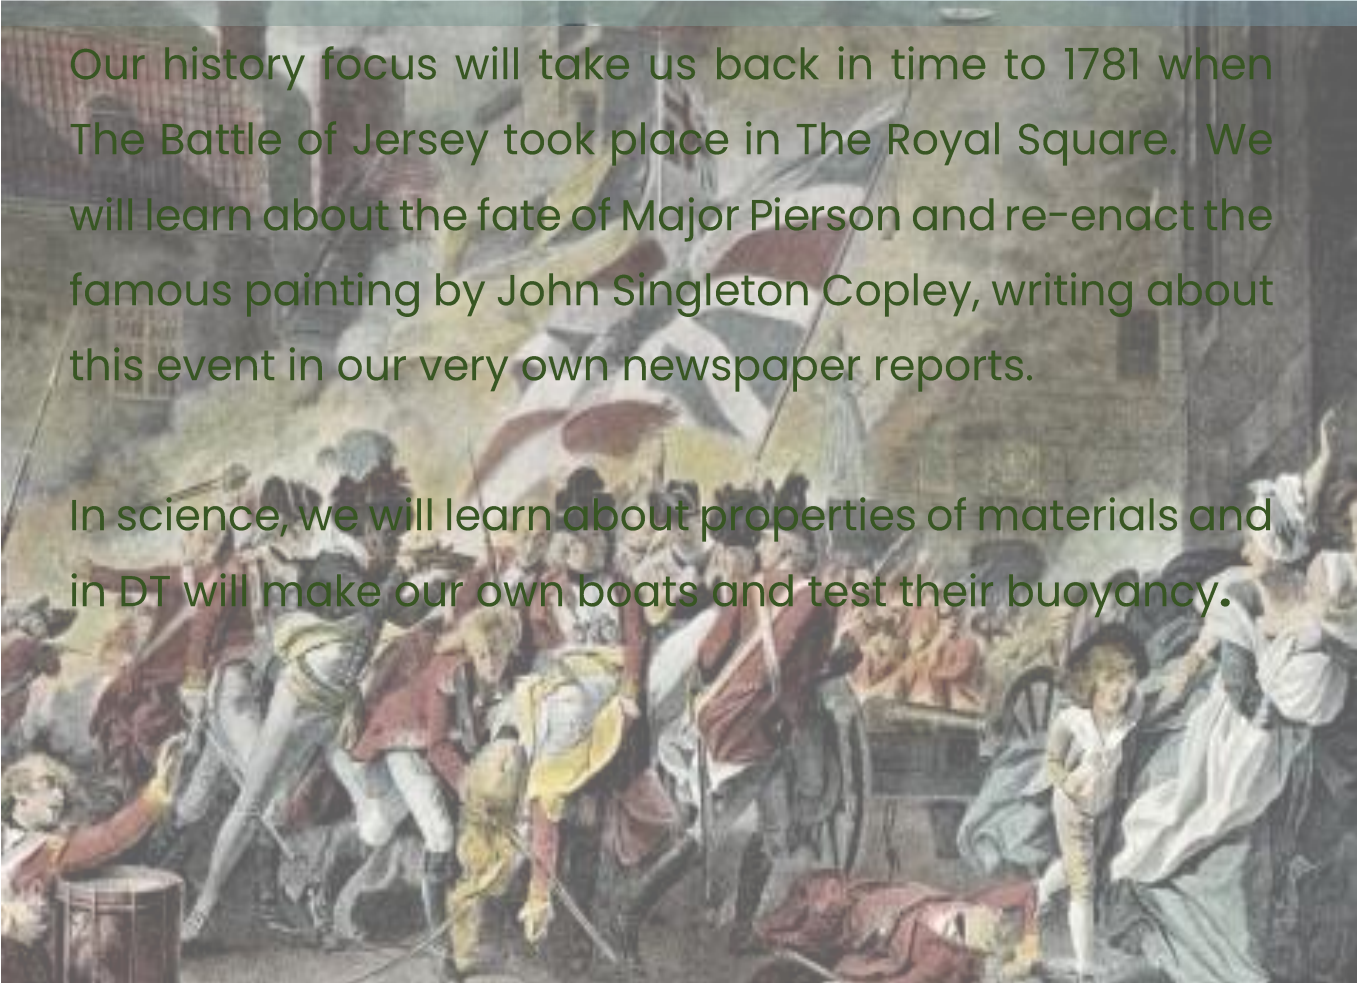

Islands

Time to head off for an adventure...

This term, we'll be using our locational knowledge and geographical skills to identify characteristics of Jersey, its parishes, and main settlements. We also plan to venture off to our neighbouring island of Sark to make comparisons with Jersey and the other Channel Islands. This will help us to become creative and write our own adventure stories about living on an island.

Our history focus will take us back in time to 1781 when The Battle of Jersey took place in The Royal Square. We will learn about the fate of Major Pierson and re-enact the famous painting by John Singleton Copley, writing about this event in our very own newspaper reports.

In science, we will learn about properties of materials and in DT will make our own boats and test their buoyancy.
