

Teeth and Digestion

Open wide – let’s take a closer look inside!

Get ready for an exciting voyage of discovery as we explore the incredible, busy world inside your body. Together, we’ll uncover how your amazing systems work to keep you alive and healthy every day.

In Science, we’ll become investigators and experimenters! You’ll take part in a fascinating experiment to trace the journey of food through the digestive system, learning how each organ plays its part. We’ll also design and create detailed models of teeth to understand their shapes, functions, and why they’re so important.

Expect plenty of hands-on activities, messy fun, and sensory experiences as we carry out tests and experiments. So, sharpen your curiosity and get your senses ready—this is going to be a learning adventure you won’t forget!
